EDUCATION

School of Computer Science & Technology, Beijing Institute of Technology

Master Student, Computer Science; GPA: 3.90/4.00

Beijing, China Sept 2020 - present

School of Computer Science & Technology, Beijing Institute of Technology

Bachelor of Engineering, Computer Science; GPA: 3.89/4.00 (Rank: 3/189)

Beijing, China Sept 2016 - June 2020

Publications

- Yuxiang Nie, Heyan Huang, Wei Wei, Xian-Ling Mao. Capturing Global Structural Information in Long Document Question Answering with Compressive Graph Selector Network The Association for Computational Linguistics: EMNLP 2022 (EMNLP 2022)
- Yuxiang Nie, Heyan Huang, Zewen Chi, Xian-Ling Mao. Unsupervised Question Answering via Answer Diversifying Proceedings of the 29th International Conference on Computational Linguistics (COLING 2022)
- Yong Hu, Heyan Huang, Tian Lan, Xiaochi Wei, Yuxiang Nie, Jiarui Qi, Liner Yang and Xian-Ling Mao. Multi-task Learning for Low-resource Second Language Acquisition Modeling Asia-Pacific Web (APWeb) and Web-Aqe Information Management (WAIM) Joint International Conference on Web and Big Data (WAIM 2020)

Projects

Conversational Recommendation System

Singapore (remotely) Sept. 2022 - Present

Advisor: Lizi Liao

- o Review the research field of dialog system and recommendation system.
- Design a conversational recommendation system with better human engagement and recommendation accuracy.
- Analyze the related datasets and try to find out shared patterns among these datasets.

Long Document Question Anwering System

Advisor: Xian-Ling Mao

Beijing, China Nov. 2021 - June 2022

- o Proposed an evidence selection model for long document question answering system to extract evidence in the long paper corresponding to a specific question.
- Applied a graph network to capture the long-range information in the evidence selection system.
- o Constructed a long document question answering dataset to evaluate the system.
- Designed extensive experiments to demonstrate the better performance of the proposed system over previous methods on two benchmark datasets.
- Wrote the paper "Capturing Global Structural Information in Long Document Question Answering with Compressive Graph Selector Network" (accepted by EMNLP 2022).

Unsupervised Question Anwering System

Advisor: Xian-Ling Mao

Beijing, China

Sept. 2021 - May 2022

- o Proposed an unsupervised question answering system to tackle with answer types beyond named entities in the low-resource question answering setting.
- o Applied a simple answer span extension algorithm, an answer-type dependent data augmentation method and a denoising filter to solve the problem.
- Constructed a question answering dataset with diverse answers without supervision signals.
- Designed extensive experiments to demonstrate the better performance of the proposed system over previous methods on five benchmark datasets.
- Wrote the paper "Unsupervised Question Answering via Answer Diversifying" (accepted by COLING 2022).

Academic Search Engine - HammerScholar

Beijing, China

Advisor: Xian-Ling Mao

Jan. 2021 - May 2021

- o Constructed a search engine for academic information seeking.
- Connected data flow between the academic dataset and the academic search indices.
- Built a text-to-video search engine (as a submodule in HammerScholar) to seek for oral videos (video format) via video content (text format).
- Associated each paper with its blogs (if any) in the search engine to help visitors better understand the paper.

Selected Awards

- National Scholarship, 2019
- National Scholarship, 2018
- Honorable Mention, Mathematical Contest in Modeling(MCM), 2018

SKILLS

• Programming Python, C++, Java, Matlab, Latex, HTML

• Frameworks Pytorch, TensorFlow, Scikit-learn, NLTK, SpaCy, Flask, Matplotlib

• Platforms Linux, Windows

Languages

• Chinese (Mandarin) Native Fluency
